

Who Did 9/11 - OBL, Bush Or Mossad? The Evidence

Another year has passed since the September 11, 2001 attacks on the U.S. Gradually the initial mainstream media version of what happened on that gruesome day is proving to be false. Increasingly, credible and respected scientists, architects, ex-governmental officials, religious leaders, journalists, military officers and others are publicly coming out with information that refutes mainstream media's version of events. What is more interesting is that besides being called “kooks” and the information presented being called “conspiracy theories”, the actual substance of the new information debunking mainstream media reports is going unchallenged! The new information about 9/11 and the ones presenting it are being called all kinds of names, however the information being presented is not being challenged or proven in any way to be false.

Furthermore, after all these years the FBI has not uncovered any Al Qaeda cells in the United States nor has it found any paper trail or hard evidence connecting Osama Bin Laden (OBL) to 9/11. There have been many arrests of Muslims for alleged “intentions” to commit terrorism and there are also many cases where FBI agent provocateurs were used to plant evidence and lead terror campaigns setting up Muslims to be charged for acts of terrorism. This has caused legal actions to be brought against the FBI. It also begs the question that if indeed Muslims were so prone to commit terrorism, why did the FBI have to conduct subversive operations designed to lead and entrap Muslims in acts of terror?

The London Times reported the following one year after 9/11 and it is still true today:

"Thousands of FBI agents have rounded up more than 1,300 suspects across America since September 11, but they have failed to find a single Al-Qaeda cell operating in the

United States...Tom Ridge, Director of Homeland Security could not explain why none had been caught."

Curiously though, according to FOX news, throughout late 2000 and 2001, a total of 200 Israeli spies were arrested. It was the largest spy ring to be uncovered in the history of the US. The Washington Post also reported that some of these Israelis were arrested in connection with the 9-11 investigation. Carl Cameron of FOX News Channel did an excellent four part, nationally televised, [series of investigations](#) into this blockbuster scandal. But FOX pulled the investigative series after Zionist groups complained to FOX executives. FOX even went so far as to remove the written transcripts of the series from its website!

The question that each individual needs to answer is what should we do as thinking, rational and reasonable people? Should we give into the herd mentality and continue to blindly believe the mainstream media version of events or should we act like truly reasonable, rational and thinking people by examining the evidence presented on both sides in order to ascertain the truth? After all, someone had to question and break from the herd perception and look at evidence to ascertain that the world was not flat!

I have written this essay to present both views -- the mainstream media version that led us to believe that Osama Bin Laden (OBL) and Al-Qaeda did 9/11 versus the version based on uncovering facts surrounding Israeli and American government involvement. I want you to objectively look at both and think deeply about what is being presented. Go to the links presented and investigate further. Then make a decision for yourself regarding which is more credible. You will find the facts I present to be unquestionably true but my comments biased. I hope that won't bother you. I am definitely of the opinion that it was Israelis along with corrupt elements in our government who were responsible for doing 9/11 as some of you reading this essay may strongly believe about OBL and Al-Qaeda are guilty of doing it!

1. The Mainstream Version

Let me share with you mainstream media "evidence" used to link 19 Arabs to doing 9/11. Besides this, there is the "so-called" proof that President Bush claim to have that was never shown to the American people but supposedly shown to Musharraf in Pakistan, who publicly stated that he had doubts about what he was shown. Here is a list of the evidence we were made to believe was sufficient proof linking OBL and Al-Qaeda to 9/11:

Like assailants who, in their preparations, leave tracks behind them like a herd of stampeding elephants?

The 9/11 hijackers made payments with credit cards with their own names; they reported to their flight instructors with their own names.

They left behind rented cars with flight manuals in Arabic for jumbo jets. They took with them, on their suicide trip, wills and farewell letters, which fall into the hands of the FBI, because they were stored in the wrong place and wrongly addressed.

Clues were left behind like in a child's game of hide-and-seek, which were to be followed!

<http://911review.com/911review/markup/ExperiencedSkeptics.shtml>

Doesn't this make you wonder, how terrorists, who were capable of secretly carrying out a very complicated plan, undetected beforehand even by the FBI, CIA, NSA, etc., could so sloppily leave evidence behind, exclusively pointing to their guilt? Or was the evidence left behind for the express purpose of incriminating Al-Qaeda?

One writer wrote the following about the discovery of Mohamed Atta's passport used for a domestic flight for which a passport was not necessary.

TOP—Mohamed Atta's U.S. visa issued in Berlin, Germany on May 18, 2000, 10 days after he acquired a new passport. BOTTOM—A partly-burned copy of Ziad Jereh's U.S. visa recovered from the Flight 93 crash site in Somerset County, Pennsylvania.

The Magic Passport Theory

We can now add Mohamed Atta's reality-defying passport to the Arlen Specter Gallery of Improbable Projectiles. This incriminating item was thrown intact from a cataclysmic fireball and miraculously plucked from 1.6 million tons of debris in a matter of hours. The corporate media rarely mention the unlikelihood of this. Many in the alternative press, though, are unafraid to draw an obvious, albeit taboo, inference: that the Atta passport is planted evidence. According to Washington, DC, peace activist John Judge, other potential plants include the Arabic-language flight manuals left in one of the hijackers' cars (with note: The discussion of the flight manuals begins at around 13:30). These manuals could serve no useful purpose at such a late stage unless the hijackers planned to finish learning how to fly during a half-hour ride to the airport. But as deliberately placed articles, they are as if a signed diary called "My Plan to Kill the President" had been unearthed in Lee Harvey Oswald's flat. Also high on the possible planted evidence list is a spiritual manifesto for the Al Qaeda kamikaze pilots, which, to journalist Robert Fisk, sounds an awful lot like it was written by a God-fearing Christian.

(See: Top Ten Conspiracy Theories of 2002)

To further elucidate the point made by Robert Fisk above, the evidence does not mesh with the notion that the terrorist hijackers were devout Muslims. Fisk writes:

"If the hand-written, five-page document which the FBI says it found in the baggage of Mohamed Atta, the suicide bomber from Egypt, is genuine, then the men who murdered more than 7,000 innocent people believed in a very exclusive version of Islam - or were surprisingly unfamiliar with their religion."

Wow!!! I guess somehow, Mohammed Atta was able to open a window on the plane and throw out his passport at the right time, so that it won't be destroyed as the plane's black boxes were. Such accuracy and precision to let the world know of his guilt is truly amazing!

The Bin Laden Videos

Then there are the Bin Laden videos. How convenient! We happen to be living in a video-centric world. Most of what people are exposed to and believe comes from watching TV. How wonderful and convenient it must be to find out that Bin Laden left proof of his guilt on video for consumption by a video-centric world. I guess if we were living in a world where smoke signals were the primary means of communication, we would have found the correct smoke signals left by Bin Laden, to correctly identify him as the perpetrator of 9/11.

But alas, the Bin Laden videos were proven to be fakes! But the same “honest media”, that made such a big fuss about showing the fake videos, never went back and told the American public that what they had shown them were fake videos of someone impersonating OBL. Nor was there any effort made to investigate who made the fake videos and why? Surely someone went through a lot of trouble to create them and then have the media broadcast them to the masses, as proof positive that OBL was responsible for 9/11. Nawww, they did not want to investigate because it did not serve their purpose. Here is what some professionals who examined the videos wrote about them:

Professor Gernot Rotter, scholar of Islamic and Arabic Studies, Asia-Africa Institute, University of Hamburg: "Regardless of the question if bin Laden personally was actively involved in the organization of the attacks or not: This tape is of such poor quality that many passages are unintelligible. And those that are intelligible have often been taken out of context, so that you can't use that as evidence. The American translators who listened to the tape and transcribed it obviously added things that they wanted to hear in many places. Things that can't be heard - never mind how often you listen to it.

"Guilty or not guilty? If the US government wants to find bin Laden guilty of the deed, they have to come up with better evidence.

"And look: the English translation that the US government presented to the world is not only manipulated in parts, but even contains mistakes. A report from Ekkehard Sieker and Georg Restle."

Dr. Abdel El M. Hussein, scholar in Arabic culture/language: "I carefully checked the Pentagon translation. The translation is very problematic. The passages that are the most important, the ones that are supposed to prove bin Laden's guilt, are not identical to the Arabic sound."

[\(See: Experts Prove the Bin Laden Videos to be Fake and a Deliberate Hoax\)](#)

There were other characteristics about OBL in the video that differed from the known Osama Bin Laden. In the video he is a bit chubby and fat. The real Osama Bin Laden was a thin man. His FBI profile describes him as being left handed. The video shows a right handed man writing with his right hand. Islam strongly prohibits men from wearing gold. In the video he is wearing a gold ring. Further evidence describing how different the man in the video was from the known OBL was exposed in the following:

FRAMING BIN LADEN

Even more compelling than the revelations of the European press are the actual images of the "confession video". Every photo previously taken of Osama Bin Laden shows gaunt facial features and a long thin nose. The Pentagon video of Bin Laden clearly shows a man with full facial features and a wide nose. Examine the pictures side-by-side for yourself if you don't believe it. The differences in facial features will jump right out at you.

As mentioned above, the FBI has no evidence linking OBL to 9/11, nor was he wanted by the FBI before the "confession videos" for the 9/11 terrorist acts. Curiously enough, the FBI still claims it has no evidence linking OBL to 9/11 and he is still is not wanted by the FBI for committing the 9/11 terrorist acts **AFTER** the release of his "confession videos"! There have been many videos released over time supposedly of Bin Laden indicating his guilt. I am sure if these videos were really accurate, the FBI would immediately change their status about OBL. So why doesn't the FBI view the "confession videos" as hard evidence? After all, if the FBI is investigating a crime such as drug trafficking, and it discovers a video of members of a drug cartel openly talking about a successful distribution operation in the United States, that video would be presented to a federal grand jury. The identified participants of the video would be indicted, and if captured, the video alone would serve as sufficient evidence to net a conviction in a federal court. So why is the Bin Laden "confession videos" not carrying the same weight with the FBI? It is because the FBI also know the videos are fakes.

Never mind also that in Bin Laden's last interview with Pakistani daily newspaper Ummat on October 16, 2001, he denounced the attacks and stated that he had nothing to do with the killing of innocent people on 9/11 and the 9/11 event was against Islam. But since this was a story that had to be read, most people don't know about that because it did not come in the form of "smoke signals" -- sorry I mean videos. I elaborate more about this below.

All of what is stated above was reported in mainstream media as "evidence" linking the 19 Arabs to 9/11. This is what most people were told and from this type of evidence most people believe OBL and Al-Qaeda did 9/11.

Now let's compare this to the mountain of evidence below implicating the Israelis and corrupt elements in our government. After doing so, ask yourself seriously, which is more believable? Links are provided directly with some of the references from main stream media sources. I have also provided a reference at the end of this article that have links to everything mentioned herein. Feel free to check them out.

2. Israelis and Corrupt Elements in the US Government Guilty Version

Here is a partial listing and involvement with events surrounding 9/11 that Israelis were involved with that no other country or organization in the world including the U.S. can match. Not only numerous but each involvement is quite significant in importance:

1. **On the day of 9/11, it was Israelis** who were caught watching the WTC burn and crumble and celebrating it with joy. When the Lakers beat Sacramento for the NBA crown in 2002, they celebrated. Why? Because their efforts were successful! The event, which was the championship game, they won. The **Israelis**, according to eyewitnesses who saw them on top of the van were ecstatic. They were joyful and why you ask? Because of America's misery, America's loss and thousands of innocent lives perishing. But to the **Israelis** this was success. They were ecstatic with joy because they too won the championship game!

Even when these **Israelis** were in FBI custody they failed numerous lie detector tests. In fact they did not pass a single one.

To show that this joy was not local only to the 5 **Israelis**, look at what was said by and about their leaders:

Reactions from the Israeli side to the September attack:

Ehud Sprinzak, terrorism expert at Hebrew University in Jerusalem, said "From the perspective of Israelis, it is the most important public relations act ever committed in our favor."

The attack "was good for the Israelis," "It is very good", said Benjamin Netanyahu...before he caught himself and amended his statement.

In an interview with Le Monde, Ami Ayalon, former Head of the Israeli Militia for Israel, stated: "Since September 11, our leaders have been euphoric."

The reason why the **Israelis** failed lie detector tests is because the truth that they could not admit was, "*We planned this. We pulled it off. We successfully created a Pearl Harbor incident to get the stupid goyim fully in bed with us. The American media that we own, will put the blame on someone else for the crime. Yeah, we were caught in the Lavon Affair, USS Liberty attack, etc. But we are ready now. The stakes are too high.*"

Three of the celebrating **Israelis** were interviewed on **Israeli TV** in November, 2001 regarding their videotaping the destruction of the WTC towers. When asked about the purpose for their presence in the US on 9/11, they answered that *“we were there to videotape the event”*. Unless the **Israelis** were in on the planning of the 9/11 attacks, how did they know about the event ahead of time to be there to videotape it? If 9/11 took the world by surprise, who informed these **Israelis** regarding the best time and location to videotape and celebrate the death and destruction of Americans at the WTC? You can watch their interview at this

2. It was **Israelis** whose van was stopped and maps and other paraphernalia were found leading the FBI to believe that they had definite involvement with 9/11.

3. It was the **Israeli** owner of the Moving van Company who immediately shutdown his business, put his house up for sale and fled to Israel when his employees were caught. Aren't these drastic actions and shouldn't we want to know why the owner behaved that way?

4. It was **Israelis** who were caught spying on the US and lived in the same vicinity as the supposed “hijackers”.

5. It was **Israelis** who were about 200 in number, who were caught in a spy ring in 2001 that [Carl Cameron reported about on FOX News](#), saying that government officials stated that they had “tie-ins” to 9/11. By the way this news was suppressed and the story taken off the Fox News website. The people responsible for that were JINSA (the Jewish Institute for National Security Affairs). JINSA President and CEO David Steinmann is also a director of CAMERA (Committee for Accurate Middle East Reporting in America), the group that actually staged the e-mail, fax, letter, and phone call mobilization that squeezed Fox TV, to the point that they removed the transcripts of the four Carl Cameron segments from their own web site. I wonder why these American **Israelis** were interested in doing such a thing?

The FOX series and other mainstream news media sources revealed that many of these **Israelis** were army veterans with electronics and explosives expertise. Many of them failed lie detector tests.

Dr. Steven E. Jones, professor of physics at Brigham Young University and Kevin Ryan, former lab manager and scientist at Underwriters Labs (UL) have shown conclusive proof that the collapsed of the steel structured WTC buildings were as a result of using thermite with explosives to cut steel and NOT as a result of planes crashing into them. UL is the company that tested the steel used in the World Trade Center buildings, and fired Kevin Ryan when he went public with information about a cover-up.

Never before -- or even after 9/11 -- has a steel structured building been brought down by fire. Steel melts at about 2800 degrees Fahrenheit. The highest possible temperature reached by jet fuel (kerosene) fires is 1000 degrees less. Furthermore, Underwriters Laboratories have certified the steel up to 2000 degrees for up to 3 to 4 hours. The

billowing black clouds seen in the WTC fires indicate that they were oxygen starved fires and could not reach more than 500 degrees. The WTC buildings burned for 1 to 1 ½ hours. The temperature of the fires was too low and the length of time burned was too short to even melt the steel structures at the WTC buildings. The Underwriters specs list 2000 degrees and 3 to 4 hours to even begin affecting the steel and ALL other situations before and even after 9/11 showed that steel structured buildings never collapse as a result of fire!!! Furthermore, evidence has been brought forth claiming that the ingredients used to manufacture the thermite originated in Israel.

The pyroclastic dust clouds of 9-11 looked very much like a nuclear blast. The super-thermite that pulverized the Twin Towers was designed at Israel's super-secret complex that manufactures nuclear weapons.

Israel's Super-Thermite Lab

Could it be that these scientists have uncovered, in later years, one of the real purposes for the Israeli spy network presence in the US in 2001?

6. It was Israelis who the following was reported about by U.S. government authorities when the Israeli spies were found:

“An Israeli government spokesman reported a few days ago the news of arresting a number of Israelis by the US intelligence bodies in Florida. This might seem strange but what is more significant is the deliberate ignorance by the Israeli government of the reason for the arrests. The Israelis did not even mention the reason or the case for which their subjects were detained. The point is that a big quantity of the Anthrax germ was held with the Israelis when they were arrested. Moreover, the detainees had 15 charts of the New York Trade Center and eight charts of the Pentagon building which were attacked on September 11th. This is in addition to other six charts of the White House, which was among the would-be targets of the September 11th attacks. According to discreet US reports, the charts found with the Israelis had accurately drawn the Pentagon building and the World Trade Center and defined their geometric projections, as well as, precisely depicted the many floors. Further, some data included in the charts define the itineraries of civil passenger planes and their destinations!!!...”

7. It was Israelis who the Jerusalem Post on September 12, 2001 reported 4000 missing or expected to be dead as a result of doing business and working at the WTC on 9/11.

8. It was the Israeli general counsel Alon Pinkas who reported that out of the 4000 Israelis dead or missing, actually only one was killed, a visitor. The statistics of this happening is IMPOSSIBLE, considering that the percentage of Israelis working at the WTC was higher than other nationalities like Portuguese, German, Guyanese, Irish, Australian, etc who reported higher numbers of casualties than Israelis. The only reason this could happen is if somehow Israelis were warned ahead of time about the planes crashing into the WTC. So, was there any evidence of prior warnings of the impending WTC attacks given to anyone in the world? Yes, there was, it just so happens that the only people in the world to receive them were Israelis!!!!

9. It was Israelis who received Odigo warnings two hours before the planes struck the WTC buildings. This was reported both in the Ha'aertz and Washington Post newspapers. This is proof positive that someone who cares for the lives of Israelis knew that planes were going to be crashed into the WTC ahead of time and wanted to make sure Israelis were not killed. I am sure the identity of that person was not Bin laden. This succinctly explains why only one Israeli got killed on 9/11 although the number was expected to be as much as 4000.

10. It was Israelis who were armed with 9mm pistols, nine grenades, C-4 explosives, three detonators and 58 bullets and caught in Mexico in an attempt to blow the Mexican Congress up on October 10, 2001, one month after 9/11. Curiously these Israelis were found with Pakistani passports in their possession. The Israelis were booked for conspiracy to destroy a building by means of an explosive by the Mexican police. If they were successful in blowing up the Mexican Congress -- planting the Pakistani passports where they could be found by the authorities -- would, like 9/11, have been blamed on Muslim terrorists. They got caught red-handed here and only G-d knows how many other incidents innocent Muslims are being blamed for that were really done by Israelis.

11. Pakistani General Gul, who at one time was a close ally of the U.S. and a staunch supporter of Western values -- who could have blamed 9/11 on his Russian or Indian enemies -- instead chose to point evidence towards the Israelis. This former director of the Pakistani Intelligence Service said, un-categorically, about 9/11 that, "The Israeli Mossad and its American associates are the obvious culprits." Why did he just happen to also point to Israelis? Why didn't he blame India or Russia who were far worse enemies to Pakistan than Israelis? This was a man who was close to the American Secret Service leaders and their ally. How come he seems to know what Delmart Vreeland and other CIA operatives worldwide knew about 9/11?

12. The news about the impending attacks was known by even low ranking CIA agents like Delmart Vreeland. To prove it he wrote what was going to happen on August 10th or 11th, 2001 in a sealed envelope while in prison in Canada and had his guards open the envelope on September 14th. Lo and behold he accurately predicted the attacks of 9/11. If he knew about this, I am certain that many others in the CIA especially at higher levels

knew about it also. As such, this was a deliberate planned action set up to create a Pearl Harbor type event to cause the American government to take actions that the planners of this event wanted. With the complicity of the Israeli controlled news media, the finger was solidly pointed at OBL, Al-Qaeda and the Taliban. They did not allow any suspicion to be pointed anywhere else. How convenient!!!

As an example of the many reports throughout the world implicating Israeli involvement in 9/11, here is a partial text of one from Canada's Stern-Intel on September 17, 2001:

"A US military intelligence source revealed details of an internal intelligence memo that points to the Israeli Mossad intelligence service having links to the World Trade Centre and Pentagon attacks."

13. A report from the German external intelligence agency, the Bundesnachrichtendienst (BND) states the following:

German intelligence detected plans for an attack on the United States, to take place on September 10 or 11, 2001. Israel was aware of the plans and wished the attack to take place without hindrance. The German ambassador informed the President of the US of the impending attacks. He thanked the ambassador and said that he already knew. Subsequently, his administration urgently requested the suppression of information on this warning.

14. The U.S. Army School for Advanced Military Studies (SAMS), wrote this about the Israeli Mossad which was reported about on September 10, 2001 one day before 9/11:

"Wildcard. Ruthless and cunning. Has capability to target U.S. forces and make it look like a Palestinian/Arab act."

BINGO! The very next day an "Arab act" took place against the U.S. and no inquiry or investigation was done based on this credible report from SAMS. As I said, the finger was so firmly pointed against Bin Laden that even intelligent people were so suffocated by the Israeli controlled press that no other questions were entertained.

15. It was a Zionist owned company, Metals Management, and a life time committed Zionist Mayor of N.Y., who were responsible for so quickly removing the steel evidence from the WTC such that no investigation could be done on whether or not the WTC steel beams melted from heat or due to bombs going off that caused the WTC to crash. Dr. Frederick W. Mowrer from the Fire Engineering department at the University of Maryland told the New York Times:

"I find the speed with which important evidence has been removed and recycled to be appalling."

16. Although the planes used to crash into the WTC could have flown from La Guardia, Kennedy, or some nearer airport, they flown from Boston's Logan airport, which was much further away from the WTC. Doing this lengthened the time to the destination

making it easier for NORAD to intercept the planes. Why this was done? It was because an Israeli company, ICTS International, controlled airport security at Boston Logan airport.

17. An abnormal amount of put stock options were purchased against United and American Airlines right before 9/11. You make money on put options when the price of a stock goes down. Gee whiz, I wonder why British Airways, Southwest Airlines, Continental or other Airlines did not have abnormally large amounts of put stock options purchases also? Why did it just so happen to be from the two airlines that were involved with the 9/11 incident? It was reported that many Israelis and even an ex-CIA director from Deutsche bank made huge profits on the purchase. One person made as much as \$2,500,000.00 on the deal and when last reported did not come to pick up his money. How did all these people know that American and United Airlines stocks would drop so dramatically in value the next day???

Not only airline stocks, but according to the Barnes Review:

“ Between August 26 and September 11, 2001, a group of speculators, identified by the American Securities and Exchange Commission (SEC) as Israeli citizens, sold “short” a list of 38 stocks that could reasonably be expected to fall in value as a result of the pending attacks. These speculators operated out of the Toronto, Canada and Frankfurt, Germany, stock exchanges and their profits were specifically stated to be “in the millions of dollars.”

I ask the same question as Michael Shore in the following paragraph. Why? Also why did this story just drop from the media and no follow up was done? This is another example of the media being in cahoots with the planners of 9/11 to deflect attention from the obvious red flags and keep the Americans firmly fixated on OBL/Al-Qaeda as the only possibility for 9/11.

“It would seem easy enough for the FBI and CIA to go to the stockbrokers where these trades were made and find out who made them. This is probably the closest link that can be established to someone who was involved in 9/11 but neither the FBI nor CIA is, apparently, pursuing this. Why?” Missing Pieces to the Amazing 9/11 Mystery Puzzle

18. When Hamas, Islamic Jihad, Hizbollah and other Palestinian groups commit acts of freedom against the brutal Israeli regime, no matter how small the numbers they kill of the enemy, they take responsibility for it. That has been their pattern for a long time. Now, the largest attack killing the most amount of “the enemy” Americans, instead of OBL boasting about it and even cheering like the Israelis did at the WTC he said the following:

"I was not involved in the September 11 attacks in the United States nor did I have knowledge of the attacks. There exists a government within a government within the United States. The United States should try to trace the perpetrators of these attacks within itself; to the people who want to make the present century a century of conflict between Islam and Christianity. That secret government must be asked as to who carried out the attacks....The American system is totally in control of the Jews, whose first priority is Israel, not the United States. "

This is quite significant because as successful as this act was, it would have been something for OBL to boast about, but instead he condemns it and distances himself from it. This is very unlikely behavior for someone guilty, and who would normally gloat at such a major accomplishment. The U.S. government claimed that it had proof of his guilt which they never showed any of us. They claimed that they showed it to the Pakistani President but he also came out with a statement claiming that he believes that there is no way that OBL could have pulled off 9/11 alone. What happened to showing the American people the proof?

Recently a real breakthrough took place. It confirmed what scientists and others were saying for years about the Bin Laden tapes being fake. In March of 2010, two ex-CIA agents admitted to creating a fake Bin Laden tape! Sad, though it is because of these fake videos that millions believed Bin Laden did 9/11. After accomplishing all their goals with the 9/11 false flag incident, they are not worried about admitting that they fooled the American public to accomplish them.

19. Financially it was Israelis who profited handsomely from the destruction of the WTC. Larry Silverstein, a Zionist Jew whose company acquired the 99 year lease for the WTC got an insurance payment for more than 4.6 billion dollars for two attacks on the WTC on 9/11. Incidentally, he acquired the lease 6 months before the 9/11 attacks and just “happened” to fully insure it against terrorist attacks.

Another Israeli by the name of Frank Lowy, chairman and founder of Westfield Holdings, had recently acquired the 99-year lease for the 425,000 square foot retail portion of World Trade Center before the WTC attacks of Sept. 11, according to The Jerusalem Post. He too also fully insured his lease against terrorist attacks and has also been paid billions.

3. Conclusion

So in regards to 9/11 we find Israelis involved with many things. Strange wouldn't you say that we don't find Russians, Saudis, Italians, Pakistanis or even Africans involved with events related to 9/11 as Israelis. Isn't it just coincidental that the people involved just happen to be Israelis?

With all this evidence of Israeli involvement, corrupt U.S. government officials involvement and media complicity in covering and even dropping information that should be pursued and thoroughly investigated, I ask the question why, why in the world is any of this not being investigated? This is a mountain of evidence. Other evidence not discussed, but also valid are:

- the many reports showing evidence that the WTC was blown up from within explaining how the buildings fell.
- no video or stills of any of the hijackers at Logan Airport.
- none of the hijackers names or even Arab names, were on the flight manifest or autopsy reports of people who died on the planes.

- how did the U.S. government identify so quickly the identities of the hijackers and was able to fix the blame on OBL just a few hours after the event.
- the fact that 7 of the hijackers identified are still alive today.
- the many false reports about terrorists identities, like the one of a Pakistani man who never left Pakistan in his life having his picture publicly broadcasted in the media.
- and I could go on and on.

The only logical conclusion that a reasonable person can arrive at is this: The 9/11 attacks, the anthrax murders, and numerous other foiled terror plots, were planned, orchestrated, financed, carried out, and covered up by the forces of Israel and corrupt elements in the US government. What other logical explanation can there be?

The "official" story that we have been told about 9/11 has more holes in it than aged cheese. It just does not add up. Yet, as a result of this story, serious actions are being taken against innocent Muslims and thousands of lives are being lost. Additionally, even more are being harassed and persecuted. Why isn't our government investigating the huge pile of evidence pointing to the Israelis and why aren't relations between the U.S. and Israel cooled? Why? Why? Why?
